

PETR VORLÍČEK

Frontend Developer & UI/UX Designer

Prague / Ústí nad Labem, Czech Republic • +420 604 852 743 • petr@vorlos.eu • [vorlos.eu](#)

PROFILE

Undergraduate Applied Informatics student at the Prague University of Economics and Business (VŠE) bridging the gap between UI/UX design and modern frontend engineering (React, Next.js, TypeScript). Focused on building digital products end-to-end—from user research and interactive prototypes in Figma to clean, scalable component architectures with AI-assisted workflows (Claude Code, Cursor).

FEATURED PROJECTS

Journeo | Flagship Project – Interactive Travel Planner & Itinerary Web App [journeo.vorlos.eu ↗](#)

- **End-to-End Product Design & UI/UX:** Mapped user flows, wireframes, and designed a high-fidelity interactive prototype in **Figma** focused on intuitive timeline creation.
- **Frontend Architecture:** Developed using **Vite.js**, **React**, and **Tailwind CSS**, optimizing for instant client-side performance and fluid micro-interactions.
- **State & Data Management:** Implemented dynamic state handling for multi-day itineraries, client-side routing, and responsive mobile-first views.

Outlay | Personal Finance & Expense Tracker Web App [outlay.vorlos.eu ↗](#)

- Designed analytical dashboards in **Figma** optimized for rapid mobile transaction entry and clear visual summaries.
- Built a responsive web application utilizing **Next.js**, **React**, and **Tailwind CSS**, focusing on clean modular components and seamless category management.

Personal Portfolio & Web Concepts | Showcase & Technical Studies [vorlos.eu ↗](#)

- Showcase portfolio engineered with a focus on modern typography, optimized Core Web Vitals, and UX case studies.
- Explored and built interactive concepts for local businesses (e.g., dynamic restaurant menu synchronization powered by the **Google Sheets API**).

SKILLS

Design & UX: Figma (Design Systems, Interactive Prototyping, Wireframing), User Flows, UI/UX Design, Information Architecture

Frontend & Tech: React, Next.js, TypeScript, JavaScript, Tailwind CSS, Vite.js, REST APIs, Convex, SQL

Tools & Workflow: Claude Code, Cursor, Git, GitHub, Vercel

Languages: Czech (Native), English (B2)

EDUCATION

Prague University of Economics and Business (VŠE) 2025 – Present
Bachelor's Degree – Applied Informatics

Secondary Technical School SPŠ Resslova, Ústí nad Labem 2021 – 2025
Field of Study: Information Technology
